

CASE STUDY

HOTEL PROJECT | SOUTHWEST FLORIDA

SCOPE OF WORK

Bedroom, occasional, and dining for 120 rooms

This hotel was destroyed by hurricane Ian in late 2022. The designer working with the hotel reached out to Sea Winds in 2023 to ask for assistance in creating a unique, coastal setting that would increase the hotel's ability to provide its guests with an unforgettable experience. The Sea Winds team worked with the designer and hotel owner to design products that fit their needs.

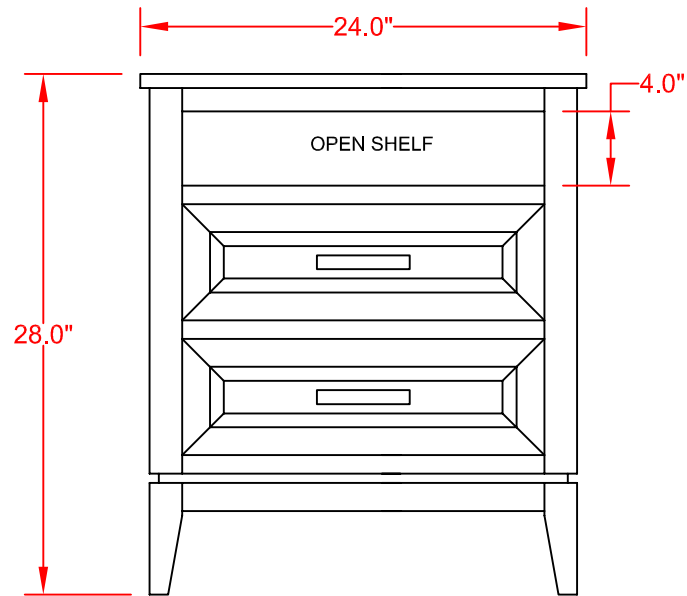

Sea Winds' existing finishes were used; however, there were several customizations to the products, including design, construction, hardware and dimensions. Sea Winds' contract capabilities are extensive. For past and current contract jobs, we have utilized HPL tops, edge protectors, aprons on the case pieces, wall-mount headboards and more. Our turnkey contract solutions assist hotels and resorts by providing durable and attractive furniture that fits their specific needs.

By furnishing with Sea Winds, hotels & resorts are able to charge a higher nightly rate, while also attracting guests to return for next year's vacation.
